- # 6 Medium 38cm tall
- # 7 Large 45cm tall

Gumboots for Birds

These very cute gumboots fit over the tubular legs and add an extra touch of kiwiana. They fit all the smaller sizes of birds

ToeToe

Opalescent acrylic and aluminium. Laser cut from artwork by Kevin Kilsby. Made in New Zealand. These are suitable for outdoors or indoors. The flexible aluminium stem swivels in the base section allowing the ToeToe to sway and turn with the wind. Easily assembled in three sections. (Black wooden base not included).

Tall Toe Toe approx 1.7m

Small Toe Toe approx 1.2m

ABOUT THE CERAMICS...

Created from my original designs, made from very strong white clay, which is slipcast and highly fired, will last a lifetime indoors and outdoors and will not craze or stain. The clay is hand painted with underglaze stains, bisque fired, clear glazed and given a final firing to achieve the high gloss.

The straight tubular legs on the birds and animals are easily removeable and are made from powdercoated aluminium so they will never rust or fade. The springi-legs, also easily removable, made from powdercoated steel and are recommended for indoor use.

Kiwi with tubular legs 16cm tall
